NEWS

Guillotine is busy again in PARIS. A battle mad French general was beheaded because he declared war on SWEDEN without the confirmation of the French emperor himself. COR and PRUSSIAN armies are invading AUSTRIA! Prague was conquered by Rhinish troops. FRANCE allied to PRUSSIA. Are they planning to divide up the whole world?

BRITAIN continues to treat the Indies as his personal playground (but COR looks like he intends to upset the applecart

somewhat...). Is RUSSIA a mighty naval power in future? MOROCCO in India running for former portugese colonies.

ITALY at war with NAPLES. Montecassino is already Italian - a strategic point in the Emilia Romagna. WARSAW is still making massive advertising for Polish Vodka and TURKEY is - like NAPLES very ambitious in the Near East, especially in Egypt. What is SPAIN and HOLLAND doing? Nobody knows...
